

Carole Linda Marshall
Registered Nutritionist

Curriculum vitae

Education and Qualifications;

2006 BSc (Hons) Human Nutrition (1st Class)
Northumbria University, Newcastle upon Tyne
Awarded prize for best performance in bioethics

Professional memberships

Registered Nutritionist (UKVRN registration number 6328)
Member of the Nutrition Society.

Employment and Relevant Experience

- 2008 – present Senior Lecturer in Human Nutrition and Food Science.
Faculty of Health and Life Sciences – see list of teaching duties.
- 2008 – present Operated the nutritional consultancy within university and I have specialised in two areas:
Firstly the nutritional care of the older adult and the elderly with primary clients being over 120 residential care homes throughout North East England and north Yorkshire. The Tyne and Wear Care Alliance regularly employ me to deliver nutritional awareness training to care home managers at regional seminars.
Secondly the nutritional provision for nursery school children in the Tyne and Wear area.
Research activity includes examination into the prevalence of malnutrition in care homes for the older adult and the elderly and existing dietary provision in residential care homes. Recently involved in the analysis of dietary provision for the under-fives in nurseries.
- 2006 - 2008 Established a nutritional consultancy initially working with a wide range of clients: private nurseries, residential homes, individual clients, therapy clinics, Northumbria University, various charities, health clubs/gyms and community work with Adult Education and the Family Learning group.

May 2000 to 2006; Moderator North East Open College Network (NEOCN)

1998-2005; Adult tutor

Responsible for designing, organising and delivering accredited courses for the North East Open College Network and NCFE

Current teaching duties(level 3-7)

2012-2016 Programme leader for the new MSc in Public Engagement with Science/Science Communication.

Module tutor for:-

- AP0303 Introduction to biological and food sciences
- AP0410 Food Science
- AP0525 Applied and Practical Nutrition
- AP0709 Foundations of Human Nutrition

Tutor on:-

- AP0409 Fundamental Nutrition
- BF0705 Subject Exploration
- BF0607 Investigative Biology
- BF0614 Bioethics

2006 – 2010

Module tutor for MSc Projects in Human Nutrition and Food Science, Analytical Chemistry and Forensic Science

External Professional Activities (last 4 years)

British Science Festival 2013 – Design and organisation of healthy banquet for over 300 under fours and carers at Centre for Life Newcastle

Welcome Trust commissioned Crunch Project 2017 – Lecture given at Centre for Life on relationship between food and mood.

Evidence of Research Interests and Student Development and Support:

Primarily interested in the nutritional provision for under-fives in nursery care and the elderly in care homes. Also proactive in researching the level of nutritional knowledge of the nutrition providers in these settings and providing training to enhance said knowledge. Subsequently my undergrad project students have presented the following:-

Dietary analysis of care home nutritional provision - abstract submission presentation at Nutrition Society Annual Meeting 2013

Investigating the nutritional quality of dietary provision for under-fives in nurseries – abstract presented at Nutrition Society Annual Meeting 2013

Investigating the macronutrient consumption of self-served meals by under-fives in nursery care – abstract submission presented at the Nutrition Society Annual Meeting 2014
